H-Index :	[Scopus: 0][Google Scholar: 1]

Area of Research

I am particularly interested in health issues especially in how social identity categories are used in everyday life as people hunt to understand, challenge, argue or deny unjust social relations, practices and role of culture in relation to psychosocial wellbeing and the interface between socioeconomic and psychological change. I see social identity categories and role of culture as vital to the relationship between people in their own community because of the process of social influence and collective behaviour that originate from them.

Work Experience

1. Health education specialists for 14 years (Ministry level, Hospital level & National Transplant Resource Centre-Ministry of Health Malaysia) to run health promotion awareness campaigns and implement government initiatives relating to health programmes. As specialist in organ donation awareness campaign (Head of Promotion for NTRC), developing (promotion materials, modules etc.) and delivering appropriate training for people such as health professionals volunteers, universities students, workplaces (private & government) and communities.
2. AXA Affin Aurance Berhad 2001-2003
